This site is not authorized by the New York State Department of Financial Services. No mortgage solicitation activity or loan applications for properties located in the State of New York can be facilitated through this site.

1. The Figure Home Equity Line is an open-end product where the full loan amount (minus the origination fee) will be 100% drawn at the time of origination. The initial amount funded at origination will be based on a fixed rate; however, this product contains an additional draw feature. As the borrower repays the balance on the line, the borrower may make additional draws during the draw period. If the borrower elects to make an additional draw, the interest rate for that draw will be set as of the date of the draw and will be based on an Index, which is the Prime Rate published in the Wall Street Journal for the calendar month preceding the date of the additional draw, plus a fixed margin. Accordingly, the fixed rate for any additional draw may be higher than the fixed rate for the initial draw.

2. Approval may be granted in five minutes but is ultimately subject to verification of income and employment, as well as verification that your property is in at least average condition with a property condition report. Five business day funding timeline assumes closing the loan with our remote online notary. Funding timelines may be longer for loans secured by properties located in counties that do not permit recording of e-signatures or that otherwise require an in-person closing, or that require a waiting period prior to closing.

3. To check the rates and terms you qualify for, we will conduct a soft credit pull that will not affect your credit score. However, if you continue and submit an application, we will request your full credit report from one or more consumer reporting agencies, which is considered a hard credit pull and may affect your credit.

4. A Figure HELOC is secured with your home as collateral, whereas personal loans and credit cards are not.

5. Our loan amounts range from a minimum of \$15,000 to a maximum of \$400,000. For properties located in AK, the minimum loan amount is \$25,001 and for properties located in TX, the minimum loan amount is \$35,000. Your maximum loan amount may be lower than \$400,000, and will ultimately depend on your home value, lien position, credit profile, verified income amount, and equity available at the time of application. We determine home value and resulting equity through independent data sources and automated valuation models.
